

REMONA FRAGRANCE DENNY

FULL STACK DEVELOPER

+91 9909730707 | dennyremona@gmail.com

PROFILE SUMMARY

Full-Stack Developer with 1.5 years of experience in the MERN stack (MongoDB, Express.js, React, Node.js). Skilled in building scalable, user-focused web applications and writing clean, maintainable code.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, MongoDB, MySQL, HTML, (S)CSS

Libraries & Frameworks: Node.js, Express, React, NextJS 14, TailwindCSS, NestJS, TanStack Query

Payments & Media Services: Stripe, Cloudinary

Tools & Platforms: Git, Fork, Github Desktop, Railway, Render, Vercel, Firebase, AWS (EC2, Lambda, S3 – theoretical knowledge),

Design & Prototyping: Canva

Concepts: Clean Architecture, MVC Architecture, SOLID Principles, Agile Methodologies

API Tools: Postman, Thunder Client

PROFESSIONAL PROJECTS

University of Bay Area (<https://ubayarea.org/>)

- Built and maintained frontend, backend, and admin panel features.
- Integrated Stripe payments and developed secure REST APIs.
- Improved user-facing features and streamlined admin workflows.
- Tech Stack: React, Node.js, Express, MongoDB, Stripe

Inventive Byte (<https://stg.inventivebyte.com/>)

- Led the frontend and admin panel development.
- Designed dashboards, content management tools, and optimized UI/UX.
- Collaborated with backend team to ensure smooth data integration.
- Tech Stack: React, TypeScript, Redux, Tailwind CSS.

Video Streaming Platform

- Designed and developed a backend system using Node.js and Express to handle video upload, storage, and secure streaming.
- Implemented user authentication, role-based access control, and efficient video content delivery.
- Optimized APIs for high performance and scalability, ensuring smooth playback.
- Tech Stack: Node.js, Express, MongoDB, JWT Authentication

Audio Streaming Platform

- Designed and developed a backend system using Node.js and Express to handle audio upload, playlist management, and real-time streaming.
- Implemented advanced features such as search, categorization, and personalized user preferences for an enhanced listening experience.
- Ensured secure access with JWT authentication and optimized APIs for high performance, scalability, and data security.
- Tech Stack: Node.js, Express, MongoDB, JWT Authentication

PERSONAL PROJECTS

HF Interiors (<http://hfinteriorss.com/>)

- Developed complete website and admin panel using MERN stack.
- Implemented custom CMS features to manage content and images.
- Built backend APIs for real-time updates and content handling.
- Tech Stack: MERN (MongoDB, Express, React, Node.js).

EduSphere (<https://edusphere-frontent.vercel.app/>)

- Built a full-stack web application with a responsive frontend using React, Vite, MUI, Emotion, React Router, and animations with Framer Motion.
- Developed a Node.js + Express backend with secure APIs to support core platform functionality and admin workflows.
- Implemented a React-based admin panel for managing users, content, and system operations efficiently.
- Deployed and hosted the application on Vercel, ensuring scalability, performance, and seamless CI/CD integration.
- Tech Stack: React, Vite, MUI, Emotion, Framer Motion, Node.js, Express, MongoDB, Vercel

EDUCATION

Bachelor of Engineering (Software Engineering)

Gujarat Technological University — 2025

- Achieved CGPA: 9.33
- Focused on software engineering principles and modern web development practices.

12th Grade (Science Stream)

Fathima Convent High School — 2021

- Secured 71.09% in the 12th-grade examinations.

10th Grade

St. Xavier's CMI Public School — 2019

- Achieved 87% in the 10th-grade examinations.

ADDITIONAL INFORMATION

- **Languages:**

- English — Fluent
- Hindi — Conversational
- Malayalam — Native

- **Activities**

- Participated in the Student Startup and Innovation Policy Hackathon at Government Engineering College, Bhavnagar.

- **Internships**

- Completed a 15-day internship at Azzip Technologies, Bhavnagar, focusing on React.js development and frontend practices.
